Connect Kids Smart Watch

You can complete the support you need for your children's safety with Bilicra Connect. You can identify safe areas with the virtual barrier feature and track your child's whereabouts with instant and historical location tracking. With the 1.4-inch IPS color touch screen and 2 mp camera, you can make uninterrupted two-way calls, and you can view the environment photo with a single button at any time via the Bilicra Care parent application. Moreover, Bilicra Connect provides extra security measures with its Reject Unknown Numbers feature. Security is now much more fun with increased communication aspects.

Vision Kids Smart Watch

With the new generation smart kids watch vision, we set the clocks to safety. With the simple and stylishly designed Bilicra Vision Smart Kids Watch, your child is always in front of your eyes, no matter where they are, whether they are playing in the park or walking on the road. With the instant and historical location tracking feature, you can monitor your child's whereabouts and experience an increased sense of security thanks to the alert that comes to your phone in case of emergency. Moreover, with its color touch screen and selfie shooting feature, you can add fun to the security your family needs.

Moby Smart Robot Vacuum Cleaner

Moby is ready to be the most ingenious product in your home. It quickly vacuums the dust on the surface it contacts with its ultra suction power of 2200 Pa. It adapts to different floor conditions with its mop cleaning mode. With 4 different levels, you can control the water flow according to your preference and prevent the abrasion of your surfaces in contact with water.

Join Smart Socket

With Join smart socket you can control your home and appliances in seconds. Enjoy the convenience of knowing which device consumes how much energy. You can see the daily/monthly/yearly power consumption of all devices connected to the smart socket and save money with the energy monitoring feature. With Join Smart Socket, you can easily manage non-smart devices and make your life easier by scheduling.

Pure Smart Air Purifier

If you want to bring a fresh breath to your home, Bilicra Pure purifies the air inside your home from all harmful substances and particles with its advanced 5-stage filtration system. With Pure, your loved ones and pets enjoy the pleasure of meeting healthy air.

Aura Aura Ozone Odor Eliminator

Aura prevents bad odors in cat litter and dog toilets thanks to its advanced ozone technology. When placed 10-15 cm away from the source of bad odor in your home, it eliminates 99.9% of bad odors and bacteria.

Feed Me Smart Food Container

Are you worried that your friends will go hungry while you are away from home? Now with Feed Me you can feed your little friends even when you are not with them. With the Bilicra Smart app, you can provide meal scheduling and organize your pet's nutrition processes according to their needs and habits.

Hydra Smart Water Dispenser

With Hydra, the water your pets drink is healthier and drinking water is more fun! Hydra provides soft drinking water with its 3-stage filter system, while at the same time filtering impurities in the water, making it possible for our little friends to reach a healthy water. Moreover, with its circulation feature, the water passing through the filter keeps its freshness for a long time.

HoDoor Smart Door and Window Sensor

With the HoDoor Smart Door and Window sensor, you will be able to control the movements of your door or window easily and feel safe. With the Bilicra Smart application, you can instantly track the movements of the doors and windows where HoDoor is installed.

Link ZigBee Gateway

Link Zigbee gateway is a network technology that enables Zigbee-enabled devices in the home to access the internet and applications. This network technology supports low energy and high data rate data flow between devices in the home.

S-Warm Smart Thermostatic Radiator Valve

Manage your heating system from your smartphone, room by room, creating comfort in your home. You can remotely control your S-Warm Smart Radiator valve via your smartphone, for this it connects to the Bilicra Smart app using a ZigBee Wireless Gateway.

S-Tap Smart Water Valve

Keep your plants watered when they need it from anywhere with the S-Tap Smart Water Valve. The automatic water timer allows you to schedule watering time taking into account weather conditions.

B-Sound Smart Siren

Go beyond the traditional alarm with the B-Sound Smart Siren. With B-Sound, you can be informed about what is happening in your home with sound or light. Working in full automation with other smart Bilicra devices and triggered by the data it receives from them, B-Sound is activated in case of movement and/or vibration in your home, opening and closing of windows or doors and many other situations. The sound and light Alarm function provides a visual warning in emergency situations using both sirens that sound a loud alarm and integrated LED lights. Outside of warning situations, the Doorbell Mode provides a pleasant chime instead of an alarm sound.

B-Motion Smart Motion Sensor

With the B-Motion Smart Motion Sensor, your home and workplace are now safer and more comfortable because the B-Motion Smart Motion sensor captures even the slightest movement. B-Motion works in full automation with other Bilicra Smart devices and automatically turns off lights or electronic products when no one is in a room, resulting in not only security but also energy savings.

B-Vibe Smart Vibration Sensor

The B-Vibe Vibration Sensor plays an important role in personal safety and property protection. It can trigger an alarm by transmitting the vibration or movement it detects to a control unit. Sensitivity levels can be adjusted. This can reduce false alarm rates and ensure more reliable results. It senses a danger that lies in the blind spot of security cameras or motion sensors and maximizes the security of your home. For example, it can detect a vibration caused by opening windows or doors and trigger an alarm, record the camera or turn on the lights.

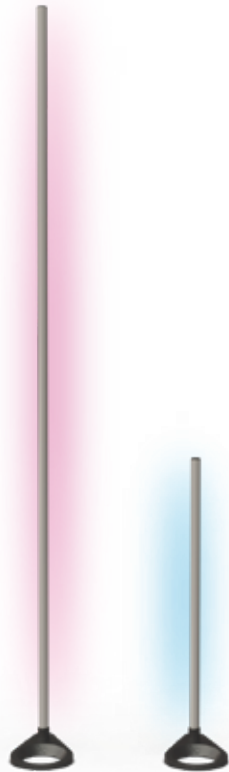

Mood Smart Bulb

Reflect the mood of color with Mood! Add excitement to your life with Mood smart bulb that offers 16 million color options. Experience next generation lighting with brightness adjustment and warm-cool daylight color adjustment. You can create a pleasant environment with the Mood Smart Bulb, which can adjust the color according to the type of music you choose and flashes in sync with the rhythm of the music. You can switch between modes such as rest, reading and evening mode with a single button and customize your own mode at any time.

Colorize Life

Locate Smart Decorative Floor Lamp

Locate Smart Floor Lamp is designed to be an indispensable part of your home with its 16 million color options and slim decorative modern design. With two different sizes, you can place it on the floor or on the table. You can have a lot of fun with the Locate Smart Floor Lamp, whose color flashes according to the music rhythm you choose, and you can easily get rid of the tiredness of the day with daylight colors that do not strain your eyes and relax your soul.

Iris 360° Smart Camera

With 3 MP (2304x1296 pixels) HD high resolution Iris, your loved ones are protected from every angle. It allows you to control every corner of your home with its 360-degree moving camera. It eliminates blind spots at the maximum level. With its wide-angle shooting feature and horizontal/vertical moving camera, nothing will be overlooked anymore.

Iris Mini Smart Camera

Iris 3MP (2275x1280 pixels) HD high-resolution camera allows you to clearly see and record even the smallest details. With its flexible body structure, you can fix it anywhere you want and control the area you want.

Eagle Smart Video Doorbell

Even if you are not at home, with Eagle Smart Video Doorbell, you can view the guests coming to your door via Bilicra Smart application and make two-way voice calls.

BOSS Smart Remote Control

With Boss Smart Remote Control, you can connect to all remote controlled devices within 10 meters and make them smart. With the Bilicra smart application, you can easily turn many non-smart devices such as air conditioners, TVs, TV boxes, satellite receivers, blinds and roller blinds controlled by infrared remote controls into smart devices. Enjoy completely customized comfort experiences.
